

“The work was done on a very tight schedule, and everything was completed seamlessly. They went above and beyond to make sure they were not disruptive to us. It was very positive from start to finish.”

Mary Wahl | Director, Corporate Services Management, *HCR ManorCare*

Northeast Corner Office

“Within just two months, Rudolph Libbe Inc. completed an interior renovation to the 14th floor at HCR ManorCare. With a very tight schedule, it was crucial that RLI complete all demolition and installation within those two months. They worked with the owner daily and even expedited some permits to meet the schedule.”

HCR ManorCare employees occupied the building during construction, which proved challenging for delivering materials as they had to be brought up and down the executive elevator. However, with excellent communication and coordination, RLI was able to renovate the large area on time. The office received a completely new look that included an open office space, new offices and conference rooms, and a new kitchen.
