

“

I didn't have to manage individual projects and multiple contractors. With all the other projects I'm working on, having that one source to go to saved me a lot of time and let me focus on other things.

”

Ed Bryzelak | Project Manager
MPG Forming Technologies - Fraser, MI

Coating Line Demo and Office Project

MPG needed to complete a big, multi-faceted project in just a few months. Finding one contractor to manage it all was proving impossible.

MPG originally interviewed the Rudolph Libbe Group to only supply a two-story modular office, but soon found that RLG could manage the entire demo and facility modification work required for the new production line, as well – and perform most of it with RLG's own experienced craftspeople.

The RLG team planned the entire project, from safety to designing key aspects of the work. The entire job took less than three months, while MPG stayed in production throughout construction.

Rudolph Libbe's Special Accounts group in Michigan manages construction projects ranging from \$500 to \$500,000, as well as 24/7 emergency facility services.
